FREE SAMPLE

Powerful Generator and Free Figma Sources

Startup Framework contains components and complex blocks which can easily be integrated into almost any design. All of the components are made in the same style, and can easily be integrated into projects, allowing you to create hundreds of solutions.

We Create Something New

We have created a new product that will help designers, developers and companies create websites for their startups quickly and easily.

30 NEW FEATURE PAGES

Startup Framework contains components and complex blocks which can easily.

USEFUL SYMBOL COMPONENTS

Samples will show you the feeling on how to play around using the components.

We solve digital problems with an outstanding creative flare

We have created a new product that will help designers, developers and companies create websites for their startups quickly and easily.

Our Happy Clients

Get a fully retina ready site when you build with Startup Framework. Websites look sharper and more gorgeous on devices with retina display support

RAYHAN CURRAN

As a business targeting high net worth individuals, we were looking for a slick, cool and mini-malistic design for our website

KAYLEY FRAME

The most important part of the Startup Framework is the samples

GENE WHITFIELD

I've built my website with Startup just in one day, and it was ready-to-go.

ALLAN KIM

Easy to setup. Easy to maintain

Bootstrap is a widely-used, sleek, intuitive and powerful front-end framework for faster and easier web development.
